

Happy Fall! Our October meeting will be full of treats starting with our own chapter advisor, Dr. Cathy Miller, of Doctors Hearing Care in New Albany. She is an energetic and progressive audiologist with insights as to how you can make the latest technology work for you. Dr. Miller began her own practice because she believed people in the Kentuckiana Area needed a hearing health professional who would address their comprehensive hearing health – not just dispense hearing aids. She is a Fellow of the American Academy of Audiology and is board certified by the American Board of Audiology. She earned her degree as a Doctor of Audiology from the University of Florida. She

will be accompanied by her associate, Dr. Lauren Brenneman, who has recently joined the team following her time as a doctoral candidate at the University of Louisville. Lauren was drawn to a career in audiology because she believes helping others communicate with their loved ones provides a better quality of life.

We will also be treated to a visit by Quinnon Taylor, Regional Outreach Coordinator with Hamilton Relay who will be presenting “See What They Say.”

And thirdly, and perhaps most importantly we will be hearing from You! Hopefully. What technology are you currently using or are you considering? Please come and share your struggles and triumphs that show where you are in your personal quest to communicate in the best way possible.

The meeting is realtime captioned by McLendon-Kogut Reporting Service and is free and open to the public.

HLAA provides information about various technologies, services, products or organizations to our members for their examination. Inclusion of any technology, service, product or organization does not mean HLAA endorsement nor does exclusion of these mean disapproval.
